

Free Daisy Chain Bribe!

With the first 1000 happy users of our new Diago Powerstation noise-free pedal power supply, we thought it about time to get the word out to some other potential converts. As a thank you, we're offering a free Diago 5-way Daisy Chain Cable to any Powerstation owner who places a review on Harmony Central. All you have you do is submit your review at the link above and then email a copy of your review to us, along with your name and address to freestuff@diago.co.uk and we'll send you one out. That's it; no bullshit and no small print!
